

INDIANAPOLIS, Saturday Evening, March 12, 1865.

Gold is declining, and goods generally are declining. The telegraph indicates a decline in all articles, but some of our shrewdest operators entertain the opinion that it is a good time to purchase while the present depressed state of feeling exists. It will be noticed by the quotations in our weekly report of the wholesale market in this city that there has been a decline in many of the leading articles.

Business has been fair during the week, but there is an indisposition to purchase when prices have a downward tendency. We call attention to our quotations of copper, sheet-iron, etc. Messrs. Cotter & Knight, dealers in these articles, and also in gas, kettles, pipes, etc., will furnish the trade on as favorable terms as they can be procured in any western market.

Money is plenty, but there is no disposition on the part of our bankers to make discounts except to regular customers. The street rates range from 12 to 15 per cent. The Fourth National Bank commences business today. T. K. Fletcher, Esq., President, and J. B. Haugh, Esq., Cashier. Both of these gentlemen have long been engaged in the banking business in our city, and have no more accomplished associates or more honorable gentlemen. The Fourth National, we predict, under their management, will be a sound and successful institution. The city, we understand, has made a loan at 1 per cent. month, to be used in relieving the municipality from the drain.

A petroleum oil and mining company has been organized by some of our capitalists upon a solid basis, and the stock has all been taken. It has been started on a safe basis, and if energy and capital will secure success, the stockholders will reap a fortune. It is called "The Hoosier Petroleum Oil and Mining Company."

Gold closed in New York at \$204.50, and \$204.50. We quote the closing rates here this afternoon:

Government stocks firm.

New York Money Market.

New York, March 11.

Gold has been more excited this morning than for several days past. A rumor that Gen. Schofield was defeated, with a loss of 1,500 men and 60 guns strengthened the price, and buying on three days was quite general, though not on any large amounts. Price opened at 190, rose to 191 1/2, and fell again to 189 1/2.

Latest—Callaghan's Exchange—Stocks firm. Gold firm on call, and sales at 192; after call it sold at 190 1/2.

New York City Cattle Market.

MILK COWS.

There is less change to report in this description of stock. The stoppage of the distilleries, and the high prices of feed combined, however, has led to a few sales of milk cows at private parties in any way disposed to operate, thus rendering prices more or less nominal. We quote as follows:

The demand for good milk cows continues, and high prices are realized, 15c being paid for a few very choice milk cows, common stock, however, is plenty and a drop in the market. Dairies and butchers generally are extra at 14c@15c, good at 13c@14c, and common to medium at 10c@12c for live weights.

The receipts this week fell up 12,245, which is 8,110 less than last week. Throughout the week the market was steady, but fell off on Saturday, owing both to the fall in wool and the poor quality of offering, and after a trading business on Monday, leaves off tame at about 4 cents below last quotations. We quote good to prime sheep at 12c@13c, ordinary at 10c@11c, and extra as high as 15c@16c.

SWINE.

In consequence of the decreased demand for hogs and the decline in gold, the market for swine is half a cent per pound lower, closing tame.

MEDICAL.

DR. JOHN BULL'S

COMPOUND

CEDRON BITTERS.

The Latest and Most Important Discovery

OF THE

NINETEENTH CENTURY!!!

No man's name is more intimately connected with the history of MATERIA MEDICA of the United States, or more favorably known as a pioneer in Medical Discovery than that of

Dr. John Bull, of Louisville, Kentucky.

His infallible preparation of **SARSAPARILLA** has long stood at the head of the various compounds of that valuable drug.

His Compound of **WILD CHERRY** has become a household word throughout the

South. His Worm Lozenges, in less than a year after their introduction, attained a reputation

As wide spread as the continent of North America. But the crowning glory of his life remains to be attained in his discovery, or rather combination, for he does not claim to have been the discoverer of CEDRON BITTERS, which is the basis of the Bitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom its virtues have been known for more than two hundred years. Armed with it, the Indian has defeated the most deadly malaria and has hadles without fear the most venomous serpents. It is a belief with them, that while there is breath in the body the Cedron is potent to cure, no matter what the issue may be.

While Dr. Bull is not prepared to endorse this extravagant pretension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that as a remedy and preventative of all diseases arising from exposure, either to change of weather or climate, or to malarial influences, it stands

WITHOUT A RIVAL!

And justly deserves the reputation it has so long enjoyed in Central America and the West Indies.

And its attendant train of symptoms, it acts more LIKE CEDRON BITTERS than anything else. A full account of this wonderful plant may be found in the 11th edition of the U. S. Dispensary, pages 1387 and 1388.

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of CEDRON with other approved tonics, distilled Bourbon Whisky, which he is confident has an equal in the world.

He might furnish a volume of certificates, but he has long since learned to estimate such things at their true value. The safest plan is for every one to try for himself the virtues of a new medicine.

GIVE THE

CEDRON BITTERS

ONE TRIAL, AND YOU WILL NEVER USE AN OTHERS.

It is not necessary to publish a long list of diseases for which the CEDRON BITTERS are a specific. In all diseases of the

BOWELS, Liver or Kidneys,

IN ALL AFFECTIONS OF THE

BRAIN, DEPENDING UPON DERANGEMENT OF THE STOMACH OR

BOWELS;

GOUT, RHEUMATISM AND NEURALGIA,

AND IN

FEVER AND AGUE.

It is destined to supersede all other remedies. It not only cures these diseases, but it prevents them. A wine glass of the Bitters, taken an hour before each meal, will obviate the ill effects of the most unhealthy climate, and screen the person taking it against disease under the most trying exposure.
